

Orange Gun Club

Effective immediately fully automatic firearms will no longer be allowed on any of the Orange Gun Club ranges.

Over time it has become increasingly obvious that the ranges at Orange Gun Club are NOT properly configured to effectively accommodate the use of fully automatic firearms.

This change is necessary to preserve our facility for the continued use of rifles and shotguns that are used for recreational, sporting and more conventional purposes.

This temporary restriction will remain in effect indefinitely. We will continue to research the best method to fortify and enhance the ranges. Once a solution is determined and put in place this restriction will be lifted.

Sorry for any inconvenience this may cause.

Orange Gun Club President, Board of Directors and Range Officers
